Event Description: Sell up to 800 tickets at \$50.00 for a chance to win a grand prize car or cash and secondary prizes. A list of all prizes will be attached to a Prize Board on the wall. Prior to the drawing ticket stub will be reverse rolled up, so as to hide the ticket number, and placed inside individual pill bottles. The pill bottles, containing individual ticket stubs, will be placed in a cylindrical tumbler. The tumbler will be spun continuously for at least 30 seconds, prior to the first draw. A patron who did not purchase a ticket will be chosen at random, and asked to withdraw one pill bottle at a time, and hand it to the Committee member. The first number drawn will be the Grand Prize winner. That pill bottle, containing the hidden ticket number will be placed in a plastic sandwich bag, and stapled to the Prize board.

Once all of the secondary tickets are drawn and stapled on the prize board next to the prizes, a Raffle Committee member will remove the Grand Prize winner pill bottle from the baggie, and extract the ticket stub. He will observe the name on the stub and hand the stub to the announcer, who will announce the Grand Prize Winner.

The winner of the Grand Prize or the Secondary prizes need not be present to win. The winner of the grand prize will be notified and will have approximately 7 days to advise the Committee Chair whether they choose to the car or cash. If the winner of the secondary prize is present, they may exchange their ticket for the prize. If they are not present, the Raffle committee chairman will collect the prize, contact the winner and arrange to hand deliver or mail the prize to them.
