**Price per Ticket,
Share, Chance/Other** \$100

Event Description: 300 tickets will be sold prior to the event and at the event if any are still available. 299 tickets will be sold for \$100 each. The final, #300 will be auctioned at the event prior to the drawing. Each ticket represents 1 chance to win \$10,000.

There will be a board member representing all 300 tickets. As each ticket is drawn it will be indicated on the boards. This will provide a visual representation of which tickets have been drawn and which tickets are still in play.

Tickets will be drawn from a bowl type container by a designated representative. The representative will be a volunteer or a board

member of New Leash on Life that does not have a ticket in the drawing.

The drawing rules will be explained before the drawing takes place to assure all in attendance understand the last ticket drawn is the winner. The exception to this is if the last ticket holders decide to split the winnings.

As the drawing gets down to the last 5 tickets, the option will be offered that the remaining ticket holders can split the winnings. If the ticket holders want to split the money, the drawing will end. If the remaining ticket holders do not want to split the money, the drawing will continue until the final ticket is drawn.

For a ticket to win, it has to be present. Someone has to be there representing the ticket. One individual can represent multiple tickets. The purchaser of the ticket does not have to be present as long as they have a representative and ticket present at the event.
