Event Description: The Foundation plans on using Bump software. The Foundation will purchase raffle software and equipment from Bump. The equipment will include point-of-sale equipment, printers, and a drum. The Foundation will own the software and equipment and can use it for future events. Each time a ticket is sold, a "stub" ticket is printed in the Foundation's office into the drum for the final draw. Each raffle ticket purchased by participants will be associated with their phone number and/or email address. On the event day, an individual (likely a representative of the Tennessee Titans), will draw the winning ticket from the drum. The Foundation's executive staff will be present to observe the drawing. The winning ticket number will

be announced during the game. The winner does not have to be present to win. The winner will be contacted via telephone and/or email.
