**Event Description:** The 2,500 numbered (numbers on the bottom) ducks are randomly placed in five tall blue plastic garbage cans which were purchased new two years ago for the event. The ticket number will match the number printed on the duck. A minimum of 100 ducks must be sold to conduct the race. The first duck to swim across the finish line will be declared the winner. The race will be held at Fisherman's Park. All ducks will be dropped into the Duck River simultaneously from several containers. Board members wade into the water of the Duck River below the dam. They empty the buckets in unison into the water after the starter, a local dignitary with no ducks in the race, gives the signal. The first 10 ducks will be directed into a mesh chute in the order of finish. The winner will be determined by video

at the finish line. Local dignitaries will also serve as honorary finish line judges. The owner of the winning duck does not need to be present to win. The winner will be notified within 24 hours after the race has been completed. If the winner does not claim the prize within 30 days, the winner forfeits his or claim to the prize. The prize would become a donation to United Way of Bedford County and would be used to continue the mission of the United Way of Bedford County. No "Rain Date" will be planned in the event of inclement weather, which would prevent the event from taking place as scheduled. The winner then would be determined by a random drawing from all entrants.
